

Strengthening linkages between community and legal organizations

CLEO CONNECTING COMMUNITIES

1. END-OF-PROGRAM EVALUATION – PARTICIPANTS’ PERSPECTIVE

April 2013

Every Connecting project will include an evaluation of the training component.

The Connecting Communities Secretariat will collect and share common feedback across all projects and present the information to the Advisory Committee for review. The Secretariat will also share aggregate results on the learning exchange for other groups to use in their public legal education work.

Please collect answers to the following questions and share the results with the Secretariat. Secretariat staff will work with the raw data to create statistics for the Connecting Communities initiative as a whole.

You may choose to ask participants for feedback on additional topics such as level of satisfaction with the presenter and are welcome to share that information as well.

Questions to participants at the end of training

- Were the goals and objectives of the training clear? (No, Somewhat, Yes)
- Were your expectations met? (No, Somewhat, Yes)
- What did you learn that you plan to apply to your work?
- Is there anything else you’d like to tell us about the training?

The Secretariat will support you in your evaluation efforts and will be pleased to answer your questions.
